The three column cash book uses three columns on each side of the book. This format in effect combines both two column formats discussed above in that it uses the additional columns to record both discounts and bank account transactions.

#### Cash Book in Accounting | Double Entry Bookkeeping

The 3 column ledger account provides information on the balance on the account after each debit or credit entry has been posted, for this reason it is often known as the running balance method. This is in contrast to the period balance method in which account balances are calculated only at the end of the accounting period.

#### 3 Column Ledger Accounts | Double Entry Bookkeeping

(c) Draw up the 3-column Cash Book of Vincent K for the month of August. Balance up the cash and bank columns, bringing down the balances at 1 September. (d) Total up the two discount columns and post the amounts to the relevant accounts in the General Ledger.
