Sense of Direction: Some Observations on the Art of ...

Non-Western societies that practise navigation without technology often have an enviably good sense of direction, like the Polowat islanders in the Western Pacific who sail canoes by the currents and stars. In Bali, where direction has a heightened spiritual meaning, 'not knowing which way North is' is considered a symptom of insanity.

Why some people have a good sense of direction - BBC ...

According to Dr. Azizi, the best way to improve your sense of direction is to practice using our two modes of mental navigation (memorizing directions via landmarks and calculating distances) at the same time. "Some people are really good at navigating by objects in the environment, the function of object memory," Azizi told WebMD. Others tend to rely on distances, such as remembering to go 40 yards to the north and then 40 yards to the west.

Can you acquire a sense of direction? | Psychology Today

The Sense of Direction is a vague sense that tells you that you are going in the right direction but you are always looking for navigational clues to support your notion of direction. The sense of relief when you see your first landmark is palpable. How navigation works without a compass I believe that the ancient peoples "always know" where they are going and many other people also just know where they are going (a sense of direction). The need for Help

A Sense of Direction - some more examples Animal Navigation

What we commonly refer to as our sense of direction is a complex mix of the external and innate: We have to process the information we take in from our immediate surroundings or a map while also planning and then remembering how best to get from point A to B.
