under the gdpr hence simple!

It's disappointing that there's no convenient menu that lets you just browse freebies. Instead, you have to search for your preferred genre, plus the word 'free' (free science fiction, or free history, for example). It works well enough once you know about it, but it's not immediately obvious.

## **Accountability Obligations Under The Gdpr**

The principle of accountability in the GDPR requires you to take responsibility for how you process personal data. You must also make sure that your company complies with other principles. Furthermore, the principle includes an obligation to demonstrate compliance, meaning that companies must have documented procedures and routines in place.

As the party with the direct relationship with the individual, they need to adopt accountability measures that deliver the necessary security and trust around processing. Another GDPR obligation for data controllers is ensuring their data processors are in compliance. Article 28(1) states that:

### **GDPR Compliance, Data Transparency and Accountability**

Accountability is one of the data protection principles - it makes you responsible for complying with the GDPR and says that you must be able to demonstrate your compliance. You need to put in place appropriate technical and organisational measures to meet the requirements of accountability.

## **Accountability and governance | ICO**

Executing accountability obligations under the GDPR involves more than checking a box. The regulation impacts your organisation on every level, whether processes, people, or technology. When implementing it, you should keep in mind that having a one-time snapshot of your organisation's situation will not make you compliant.

## **EU GDPR Accountability - 3 main principles to implement**

The accountability principle requires you to take responsibility for what you do with personal data and how you comply with the other principles. You must have appropriate measures and records in place to be able to demonstrate your compliance. For more information, see the accountability and governance section of this guide.

GDPR: third-party data processors' responsibilities. Under the GDPR (General Data Protection Regulation), your organisation's compliance requirements depend on whether you are a data controller or data processor. A data controller is the person or organisation that determines how and why personal data is processed.

### **GDPR: third-party data processors' responsibilities - IT ...**

Under the GDPR, a controller must notify the Data Protection Commission of a personal data breach without delay where that breach is a likely to result in a risk to the rights and freedoms of the data subject. Notification should be made within 72 hours of the controller becoming aware of the breach.
