Analysis is a problem

Access Free Analysis

Solving method that seeks to break a problem down in order to solve it. Synthesis seeks to solve a problem by building prototype solutions. Analysis is associated with the scientific method while synthesis is associated with design professions such as architecture.

Design Thinking: Analysis vs Synthesis -

Access Free Analysis

Simplifiable

Analysis + Synthesis =
Design Thinking

Analysis and synthesis, thus, form the two fundamental tasks to be done in design thinking. Design thinking process starts with reductionism, where the problem statement is broken down into smaller fragments.
