In Art and Agency, Alfred Gell formulates an anthropological theory of visual art that focuses on the social context of art production, circulation, and reception. As a theory of the nexus of social relations involving works of art, this work suggests that in certain contexts, art-objects substitute for persons and thus mediate social agency.

Agency is the capacity of an actor to act in a given environment. The capacity to act does not at first imply a specific moral dimension to the ability to make the choice to act, and moral agency is therefore a distinct concept. In sociology, an agent is an individual engaging with the social structure. Notably, though, the primacy of social structure vs. individual capacity with regard to ...
