Temperature and humidity level information display Using the INFO button on the remote control, you can display the current indoor temperature and humidity level. The display serves as a reference during humidifying or dehumidifying operation and allows detailed checking of the humidity level to help you prevent mold or dust mite proliferation.

Remote Control | Daikin AC
The flap may have been touched during operation. Operate the air conditioner, and then turned it off. The flap will close properly. In the event the air conditioner stops operating due to a power outage, causing the flap to remain open, the flap may not close completely when the power supply resumes. In such a case, operate the air conditioner.
