### Day Trading For Beginners | Stock Market 101

Day trading is a trading strategy that involves entering and exiting positions on the same trading day. Since the trading happens within the same day, this strategy may also be referred to as intraday trading. The goal of day traders is to use intraday trading strategies to try and profit off of price changes in a financial instrument.

Remember that as a day trader you must focus either on your trade or on your rules. Day traders who move into and out of positions within seconds or minutes don't have time to do both. Walking away from the computer with open positions: Experienced day traders never walk away from their computers when they still have an open position. Because experienced day traders respond to price changes that occur in mere seconds or minutes, they definitely don't want to be away from the screen while ...
