Electrical Installation expertise | HellermannTyton

Hi, I am new to this site. Back in 1992 and being unemployed I took a crash course in Electrical Installation with the 16 regs and within 6 months completed and passed C&G part1 and AM1. 4 months later I completed the C&G part2 but was advised that I had to work for a JIB registered company for 6 months before completing the AM2 which would then make me a fully trained electrician.

More about Electrical Installations. Electricians are needed wherever there is electricity. They can expect to work in homes, offices, factories, and even farms, carrying out maintenance and repairs, and sometimes designing and installing new systems. Given the risks associated with electricity, offering a safe and reliable service to customers is paramount.
