students, Dr. Misner and Kip Thorne, of the California Institute of Technology, published "Gravitation," a 1,279-page book whose witty style and accessibility — it is chockablock with sidebars and personality sketches of physicists — belies its heft and weighty subject. It has never been out of print."

Charles W. Misner

Misner, Thorne & Wheeler: Gravitation It is with some trepidation that I finally opened the classic book on general relativity, although it has been on my bookshelf since its initial publication in 1973. It's a truly massive book, and although parts of it are now out of date, it is still seen as a major reference in the field.
