Research Methods in Psychology  
Psychologists do more than just wonder about human behavior: they conduct research to understand exactly why people think, feel, and behave the way they do. Like other scientists, psychologists use the scientific method, a standardized way to conduct research.

## **Research Methods in Psychology: Introduction | SparkNotes**

As a research method, a survey collects data from subjects who respond to a series of questions about behaviors and opinions, often in the form of a questionnaire. The survey is one of the most widely used scientific research methods. The standard survey format allows individuals a level of anonymity in which they can express personal ideas.
