Masters Of The Planet Ian

In Masters of the Planet: The Search for Our Human Origins, Ian Tattersall tells "the story of how human beings came to be the extraordinary creatures they are" (though before readers get too excited, he tips his hand early-on by asserting, "remarkable as we may think we are, we are actually the product of a routine biological process").

Amazon.com: Masters of the Planet: The Search for Our ...

Ian Tattersall's new book, Masters of the Planet, is an eloquently and well-written story of our human origins. While much of the material included in this book was familiar to me, I have to say that Dr. Tattersall's organization and presentation makes this book the perfect gift for someone looking for a thorough but easily understandable first exposure to human evolution.

Masters of the Planet | Ian Tattersall | Macmillan

"For almost 40 years, Ian Tattersall has been one of our leaders in the field of human evolution. Masters of the Planet is a stunning culmination of a career in science: a brilliant and engaging account that illuminates and inspires. Read Tattersall and you will not see yourself, let alone our entire species, in the same way again."
