Contract

Contract (ECC) is the main construction contract within the NEC3 family, from which the options A-F are extracted. The Engineering and Construction Contract has been used on some of the highest profile projects in the world, including the London 2012 Olympics, as well as every day projects like the construction of buildings, highways

Engineering And
Construction
Contract

NEC was first published in 1993 as the New Engineering Contract. It is a suite of construction contracts intended to promote partnering and collaboration between the contractor and client. It was developed as a reaction to other more traditional forms of construction contract which have been portrayed by some as adversarial.
