North American Indians In Early

The Paleo-Indian or Lithic stage lasted from the first arrival of people in the Americas until about 5000/3000 BCE (in North America). Three major migrations occurred, as traced by linguistic and genetic data; the early Paleoamericans soon spread throughout the Americas, diversifying into many hundreds of culturally distinct nations and tribes.

History of Native Americans in the United States - Wikipedia

The earliest ancestors of Native Americans are known as Paleo-Indians. They shared certain cultural traits with their Asian contemporaries, such as the use of fire and domesticated dogs; they do not seem to have used other Old World technologies

Native Americans in the United States - Wikipedia

Unlike most other Native American tribes in the American Southeast at the start of the historic era, the Cherokee and Tuscarora people spoke Iroquoian languages. Since the Great Lakes region was the territory of most Iroquoian-language speakers, scholars have theorized that both the Cherokee and Tuscarora migrated south from that region.

Cherokee - Wikipedia

The indigenous peoples of the Americas are the pre-Columbian peoples of North, Central and South America and their descendants. Although some indigenous peoples of the Americas were traditionally hunter-gatherers—and many, especially in the Amazon basin, still are—many groups practiced aquaculture and agriculture.

Powhatan village of Secoton, colour engraving by Theodor de Bry, 1590, after a watercolour drawing by John White, c. 1587.

Native American history is made additionally complex by the diverse geographic and cultural backgrounds of the peoples involved. As one would expect, indigenous American farmers living in stratified societies, such as the Natchez, engaged with Europeans differently than did those who relied on hunting and gathering, such as the Apache.
