Sunos 53 Writing Device Drivers Sbus Scsi Developers Kit ...

The device driver interface/driver-kernel interface (DDI/DKI) is a new name for the routines formerly called "kernel support routines" in the SunOS 4.1 Writing Device Drivers manual, and for the "well-known" entry points in the SunOS 4.1 cdevsw and bdevsw structures. The intent is to specify a set of interfaces for drivers that provide a binary ...
